Empower Partnerships for Inclusive Communities

Global Summit on Disability Inclusion
October 29-November 2, 2013 Washington, D.C. USA

Sponsored by the U.S. Department of State's Bureau of Educational and Cultural Affairs and administered by Mobility International USA (MIUSA).
EMPOWER PARTNERSHIP

The Empower Partnerships program is a prestigious, two-way international exchange program for organizations working on or interested in working on disability-related issues and inclusion as articulated in the United Nations’ Disabilities Treaty. This program aims to create sustainable organizational partnerships between organizations in the U.S. and overseas, expanding the capacity of each organization to promote disability inclusive communities, and to advance disability rights.

Empower Partnerships is administered by Mobility International USA and sponsored by the U.S. Department of State.

OVERVIEW OF ACTIVITIES

In summer 2013, most American partners traveled overseas to gain an understanding of disability access and inclusion in their partners’ country.

In October 2013, a three-week program in the U.S. will provide international partners with tools to foster sustainable partnerships and will establish a common human rights framework for implementation of projects that promote rights and inclusion of people with disabilities in their respective communities. Program activities take place in MIUSA’s hometown of Eugene, Oregon, partner host communities across the U.S., and will conclude in Washington, D.C. with the Global Summit on Disability Inclusion.

What is a Disabled People’s Organization?

A DPO is an organization that is led by people with disabilities. DPOs are representative organizations or groups of people with disabilities, where people with disabilities constitute a majority of the overall staff and board, and are well-represented in all levels of the organization.

Organizations led by families and other advocates of people with disabilities, with the primary goal of empowerment and the development of self-advocacy of persons with disabilities, may also be considered as DPOs. DPOs work from an understanding of disability from a human rights or social (vs. medical) model perspective.

INTRODUCTION TO PARTNER TEAMS

Nineteen Empower Partnership teams have been formed to work together to promote disability inclusion and advance disability rights globally. Each partnership team includes three organizations:

- U.S. partner organization with expertise in inclusive programming and practices.
- In-country partner that is a Disabled People’s Organization (DPO) or disability advocacy organization.
- In-country partner that is a civil society institution for which disability inclusion is a priority.

Empower teams are working on collaborative projects that increase access and promote inclusion of people with disabilities across many professional sectors. Projects range from inclusive education, independent living, healthcare and reproductive rights, law and policy, legal aid, recreation and sports, access to public services, and advocacy for youth, women, and minority disability groups.
Training People with Disabilities to be Community Advocates

Team Argentina is developing a series of trainings for people with disabilities on the principles of independent living and skills for community advocacy. The partners will conduct these trainings for individuals in secondary schools, day centers and other locations serving individuals with disabilities. The team will follow trainees to document outcomes, and will use success stories to support requests for funding and partnership to expand the program.
